Monitor Your Plant Anytime, Anywhere.

with the TANK TRACKER

The Tank Tracker app allows you to monitor specific operations of your plant on the go.

- Observe tank and silo levels in real-time
- Keep track of important temperatures
- Monitor Hot Oil Heater vitals
- Instant error alerts
- Allow team access
- and more

The app functions on any smart phone and works seamlessly with the Stansteel/Hotmix Parts & Service Tank Management System. Now you don’t have to be physically at the plant to know the status of your tanks and silos.

With the Tank Tracker app you can:

We Help Your Plant Run Better.
