

Your Total Plant Smart Control

Accu-Track™ ADVANTAGE

SILOS

- Automatic Bintop Conveyor and Batcher Control
- Drag Slat & Bintop Zero Speed Alarm
- High Silo Alarm & Shutdown
- Change Mix Time Countdown
- Silo Inventory Output Pulse Provides Silo Level Monitoring

ADDITIVES | RAP SHINGLES | DUST/FINES

- Meter or weigh any ingredient
- Easily modified system to meet state specifications or changing conditions
- Unique timing features help minimize waste

BAGHOUSE

- Baghouse Pulse or Rotor Control
- High Temperature Alarm and Shutdown
- Baghouse Auger Zero Speed Alarms
- High Hopper Alarm

DRUM / DRYER

- Burner Fuel Usage Rate and Totals
- Individual AC On/Off Times for each mix design - reduces waste!

BELT SCALES

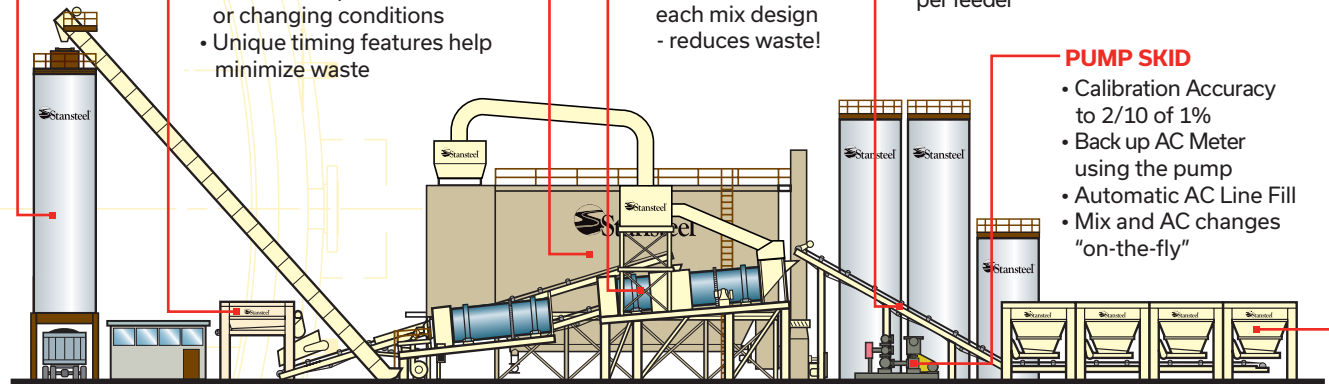

- Internal Scale Calibration to meet or exceed state specifications
- Dual Scale Capabilities - Alarms when scale are out of calibration
- Scale Bypass Feature

COLD FEEDS

- Material No-Flow Alarm
- Automatic Bin Vibrator Control
- Individual Feeder Stop/Start Times to reduce waste
- Calibrate Feeder in Minutes
- Feeder Zero Speed Indication
- Control up to 15 feeders standard
- Multi Point Feeder Calibration - Improves Gradation Accuracy
- Pre-calibrate multiple materials per feeder

PUMP SKID

- Calibration Accuracy to 2/10 of 1%
- Back up AC Meter using the pump
- Automatic AC Line Fill
- Mix and AC changes "on-the-fly"

Compatible with all plant manufactures and configurations.
